

# OPTIMIZE YOUR PUBLIC CLOUD ENVIRONMENT

Get the most out of your current Amazon Web Services (AWS) and/or Microsoft Azure public cloud infrastructure by ensuring your apps, workloads, and services are following industry best practices for operations, security, reliability, performance, and cost optimization. ConvergeOne Cloud Audit Services identify areas for improvement and risk areas that can cost your business time, money, and reputation.

ConvergeOne Cloud Audit Services provide an analysis of your existing public cloud implementation with recommendations to align with the cloud provider's current best practices.

#### **Identify Workloads**

ConvergeOne Cloud Consultants work with you to identify the workloads to be audited within your public cloud infrastructure. This ensures the results of our audit provides you actionable information that results in positive business outcomes.

### **Deploy Cloud Audit Tools**

Included with this service are industry standard tools designed to collect detailed configuration and usage information from your public cloud. These tools DO NOT access data within your environment and require authorized access and controls from your cloud security team.

#### **Provide Holistic Data**

Detailed reports show how your cloud environment compares to public cloud best practices and standards.

#### **Review and Recommend**

ConvergeOne Cloud Consultants meet with you and your cloud team to review the findings of our audit, discuss our recommendations to remediate any items found, and to prioritize business outcome driven next steps

# **BUSINESS OUTCOMES**

#### **Operational Excellence**

Optimal processes that keep a system running in production

#### **Security**

Protecting applications and data from threats

#### Reliability

Recovering from failures and continuing to function

#### **Performance**

Adapting to system changes

#### **Cost Optimization**

Managing costs to maximize value

## **The ConvergeOne Difference**

We align your required capabilities with measurable and actionable business outcomes

Expertise in both AWS and Azure

Industry leading Enterprise Networking, Data Center, and Security Services

World class Net Promoter and Transactional Net Promoter Scores: 2x the industry average

# PROTECT YOUR BUSINESS FROM DISRUPTION

ConvergeOne delivers business outcomes based upon your specific needs, not a "one size fits all" approach. Our team of cloud experts uses decades of expertise and best practices to ensure success in your cloud journey.
